

# Code Chronicles

**Spotlight:** 1802 N Centre City Pkwy

**Case:** Code compliance played a crucial role in addressing the encampment at 1802 N. Centre City. This property has a case history and a list of complaints over the years. The property is located near Escondido High School and poses not only safety issues but also significant health hazards. Our case began in March 2024, and the team worked diligently with the property owners for several months to achieve compliance. This was not an easy task, as it took 7 months to comply. As of September 16, 2024, the property is now in compliance. This is a significant win for the city and code compliance team, who have improved the safety and appearance of this area.

**Before & After:**
